PUBLIC NOTICE OF INDUSTRIES IN SIGNIFICANT NON-COMPLIANCE WITH PRETREATMENT REGULATIONS

 PORSF
 11.3.193.1
 No Date

Federal pretreatment regulations 40 CFR 403.8(f)(2)(vii) require the City of Portland Bureau of Environmental Services to annually publish a list of industries that are or have been in significant non-compliance with local, state or federal requirements. This publication includes the 3rd and 4th quarters of 1993 and the full calendar year of 1994. The following companies are or were in significant non-compliance during the time period and for the reasons listed after the company name.

Alpenrose Dairy, 6149 SW Shattuck Rd., was in significant non-compliance during the third, and fourth quarters of 1993 and for the first quarter of 1994 due to discharges which were in violation of the local pH discharge limit. The City issued a compliance order, and Alpenrose has modified its pretreatment system to meet all local discharge limits. Alpenrose paid civil penalties of \$200 and is in full compliance.

Anodizing, Inc., 7933 NE 21st Ave., was in significant non-compliance during the third and fourth quarters of 1993 and for all four quarters of 1994 due to sulfate discharges in violation of the local discharge limit. The City is currently conducting a study to re-evaluate the sulfate local discharge limit. Anodizing was also in significant non-compliance during the fourth quarter of 1993 and the first, second and third quarters of 1994 due to total oil and grease discharges in violation of the categorical limit. The City and Anodizing entered into a consent agreement which resulted in compliance with the applicable limit. Anodizing paid civil penalties of \$600 and is in full compliance.

Aramark Uniform Services, Inc., (formerly Aratex Services, Inc.), 1848 NW 23rd Ave., was in significant non-compliance during the third quarter of 1993 and for the first quarter of 1994 due to discharges of chlorinated hydrocarbons in violation of the local discharge limit. The City is currently re-evaluating its current chlorinated hydrocarbons local discharge limit. Aramark was also in significant non-compliance during the first and second quarters of 1994 due to failure to submit required reports within 30 days of the due dates. Aramark was also in significant non-compliance during the third quarter of 1993 due to non-polar fats, oil and grease discharges in violation of the local discharge limit. Under a compliance order, Aramark has completed plant modifications and has implemented pretreatment. Aramark paid civil penalties of \$1,550.

Arrow Transportation Company, 10145 N Portland Rd., was in significant non-compliance during the third quarter of 1993 and the first quarter of 1994 due to ammonia discharges in violation of the local discharge limit. Arrow was also in significant non-compliance during the first and second quarters of 1994 due to non-polar fats, oil and grease discharges in violation of the local discharge limit. Arrow was also in significant non-compliance for the second quarter of 1994 due to violation of their fluoride permit limit. Arrow was placed on a compliance order to install pretreatment equipment and paid a civil penalty of \$75. The City is currently conducting a study to re-evaluate the ammonia and fluoride local discharge limits.

Armour Swift-Eckrich, 9208 N Tyndall, was in significant non-compliance for the third quarter of 1993 due to failure to submit a required report within 30 days of the due date. Armour is now in full compliance.

Blackline Plating, 8223 N Decatur St., was in significant non-compliance for the third quarter of 1993 due to discharges of cadmium, chromium and zinc in violation of local and categorical limits. Blackline paid civil penalties of \$600 and no longer discharges wastewater from this location. Blackline, Inc. is now in full compliance at their new location.

Blitz-Weinhard Brewing Company, 1133 W Burnside, was in significant non-compliance during the first quarter of 1994 due to discharges which were in violation of the local discharge pH limit. Blitz has entered into a consent decree with the City and state to correct pH violations. Blitz paid civil penalties of \$12,400.

Chase Packaging Corporation, 2550 NW Nicolai St., was in significant non-compliance during the first, second and third quarters of 1994 due to failure to submit required reports within 30 days of the due dates. Chase Packaging paid a civil penalty of \$75 and is in full compliance.

Cintas Corp., 2522 NE Martin Luther King Jr. Blvd., was in significant non-compliance during the third and fourth quarters of 1994 due to non-polar fats, oil and grease discharges in violation of the local discharge limit. At their new location at 9045 N Ramsey, Cintas was in significant non-compliance during the fourth quarter of 1994 due to non-polar fats, oil and grease discharges in violation of the local discharge limit. Cintas was placed under a compliance order to install pretreatment equipment. Cintas is now in the process of achieving full compliance with local discharge limits.

Columbia Knit, Inc., 5200 SE Harney Dr., was in significant non-compliance during the first and second quarters of 1994 due to failure to submit required reports within 30 days of the due dates. These violations occurred during the implementation of the wastewater discharge permit. Since that time, Columbia Knit has continued to demonstrate full compliance with self-monitoring requirements.

Continental Brass Co., 11555 NE Sumner St., was in significant non-compliance during the first, third and fourth quarters of 1994 due to discharges of sulfate in violation of the local discharge limit. The City is currently conducting a study to re-evaluate the sulfate local discharge limit.

Freightliner Corp., Truck Manufacturing Plant, 6936 N Fathom St., was in significant non-compliance during the first quarter of 1994 due to discharges of chromium in violation of the categorical limit. Freightliner was also in significant non-compliance during the third quarter of 1994 for violations of a compliance order. Freightliner paid civil penalties of \$11,100 and is now in full compliance.

Freightliner Corp., Parts Manufacturing Plant, 5400 N Basin Ave., was in significant non-compliance during the first, second and third quarters of 1994 due to failure to

Matlack, Inc., 8101 NE 11th Ave., was in significant non-compliance during the third and fourth quarters of 1993 and for all four quarters of 1994 due to discharges of sulfates and phenolics in violation of local discharge limits. Matlack was also in significant non-compliance during the third and fourth quarters of 1993 and for the first quarter of 1994 due to non-polar fats, oil and grease discharges in violation of the local discharge limit. Matlack was also in significant non-compliance during the second and third quarters of 1994 due to fluoride discharges in violation of their permit limit. The City is currently conducting a study to re-evaluate the fluoride, phenolics and sulfate local discharge limits. Matlack has installed extensive pretreatment equipment.

Metro - St. Johns Sanitary Landfill, 9363 N Columbia Blvd., was in significant non-compliance during the third and fourth quarters of 1993 and for the first, second and third quarters of 1994 due to ammonia discharges in violation of the local discharge limit. Metro - St. Johns Sanitary Landfill was also in significant non-compliance during the fourth quarter of 1993 due to phenolics discharges in violation of the local discharge limit. The City is currently conducting a study to re-evaluate the ammonia and phenolics local discharge limits.

Michaels of Oregon Company, 7305 NE Glisan St., was in significant non-compliance during the fourth quarter of 1993 and for the first, second and third quarters of 1994 due to discharges of non-polar fats, oil and grease in violation of the local discharge limit. The City issued Michaels of Oregon a compliance order and they have installed pretreatment equipment. Michaels of Oregon is now in full compliance with local discharge limits.

Myers Container Corp., 10103 NE Marx St., was in significant non-compliance during the third and fourth quarters of 1993 due to discharges of phenolics in violation of the local discharge limit. The City is currently conducting a study to re-evaluate the phenolics local discharge limit. Myers Container was also in significant non-compliance for the first quarter of 1994 due to lead discharges in violation of the local discharge limit. Myers Container has improved their pretreatment process and is now in compliance with all local discharge limits.

Myers Container Corp., 3000 NW St. Helens, was in significant non-compliance during the first quarter of 1994 due to discharges of total toxic organics in violation of their permit limit. Myers Container is in full compliance with all parameters of their permit. **New System Laundry**, 432 NE 10th Ave., was in significant non-compliance during the first quarter of 1994 due to non-polar fats, oil and grease discharges in violation of the local discharge limit. New System Laundry is in the process of installing pretreatment equipment to achieve full compliance.

Northwest Motor Welding, 8100 NE 14th Place, was in significant non-compliance during the third quarter of 1993 due to discharges of lead in violation of the local discharge limit. Northwest Motor Welding paid civil penalties of \$725. Northwest Motor Welding was ceased operations in the city of Portland.

Oregon Conference of Seventh Day Adventists, 605 SE 39th Ave., was in significant non-compliance during the third and fourth quarters of 1993 due to failure to submit required reports within 30 days of the due dates. Seventh Day Adventists paid civil penalties of \$225 and is now in full compliance.

Oregon Steel Mills, 14400 N Rivergate, was in significant non-compliance during the third and fourth quarters of 1994 due to failure to submit required reports within 30 days of the due dates. Oregon Steel Mills is now in full compliance.

Precision Castparts Corp., 4600 SE Harney Drive, was in significant non-compliance during the third quarter of 1993 due to failure to submit required reports within 30 days of the due dates. Precision Castparts paid civil penalties of \$150 and is now in full compliance.

Premier Edible Oils, 12005 N Burgard Rd., was in significant non-compliance during the third and fourth quarters of 1993 and for all four quarters of 1994 due to discharges of phenolics in violation of the local discharge limit. The City is currently conducting a study to re-evaluate the phenolics local discharge limit.

Qualex, Inc., 2725 SE Raymond St., was in significant non-compliance during the third and fourth quarters of 1993 and for the first, second and third quarters of 1994 due to ammonia discharges in violation of the local discharge limit. The City is currently conducting a study to re-evaluate the ammonia local discharge limit.

Star Rental and Sales, 1735 SE Martin Luther King Jr. Blvd., was in significant non-compliance during the third quarter of 1993 and the first quarter of 1994 due to discharges of non-polar fats, oil and grease in violation of the local discharge limit. Star Rental is now in compliance with the local discharge limit.

Sunwest Energy Corp., 2601 N Newark St., was in significant non-compliance during the third and fourth quarters of 1993 and for the second quarter of 1994 due to discharges of sulfate in violation of the local discharge limit. Sunwest was also in significant non-compliance during the third quarter of 1994 due to fluoride discharges in violation of their permit limit. The City is currently conducting a study to re-evaluate sulfate and fluoride local discharge limits.

Tel-Met Company, 4400 SE 17th Ave., was in significant non-compliance during the

quired reports within 30 days of the due date. The company paid a civil penalty of \$75 and is in full compliance.

Cintas Corp., 2522 NE Martin Luther King Jr. Blvd., was in significant non-compliance during the third and fourth quarters of 1994 due to non-polar fats, oil and grease discharges in violation of the local discharge limit. At their new location at 9045 N Ramsey, Cintas was in significant non-compliance during the fourth quarter of 1994 due to non-polar fats, oil and grease discharges in violation of the local discharge limit. Cintas was placed under a compliance order to install pretreatment equipment. Cintas is now in the process of achieving full compliance with local discharge limits.

Columbia Knit, Inc., 5200 SE Harney Dr., was in significant non-compliance during the first and second quarters of 1994 due to failure to submit required reports within 30 days of the due dates. These violations occurred during the implementation of the wastewater discharge permit. Since that time, Columbia Knit has continued to demonstrate full compliance with self-monitoring requirements.

Continental Brass Co., 11555 NE Sumner St., was in significant non-compliance during the first, third and fourth quarters of 1994 due to discharges of sulfate in violation of the local discharge limit. The City is currently conducting a study to re-evaluate the sulfate local discharge limit.

Freightliner Corp., Truck Manufacturing Plant, 6936 N Fathom St., was in significant non-compliance during the first quarter of 1994 due to discharges of chromium in violation of the categorical limit. Freightliner was also in significant non-compliance during the third quarter of 1994 for violations of a compliance order. Freightliner paid civil penalties of \$11,100 and is now in full compliance.

Freightliner Corp., Parts Manufacturing Plant, 5400 N Basin Ave., was in significant non-compliance during the first, second and third quarters of 1994 due to failure to submit required reports within 30 days of the due date. Freightliner paid civil penalties of \$2,850 and is now in full compliance.

GranPac Foods, 7124 N Marine Dr., was in significant non-compliance during the third quarter of 1994 due to failure to submit a required report within 30 days of the due date. GranPac is now in full compliance.

Industrial Laundry Service, 14321 NE Sandy Blvd., was in significant non-compliance during the fourth quarter of 1993 and for the first and second quarters of 1994 due to discharges of non-polar fats, oil and grease in violation of the local discharge limit and for discharges of total toxic organics in violation of their permit limit. Industrial Laundry entered into a compliance order to install pretreatment equipment. Industrial Laundry was purchased by UniFirst Corporation in July of 1994.

James River Paper Company, CZ Inks Division, 2985 NE Marine Dr., was in significant non-compliance during the third and fourth quarters of 1993 and for the fourth quarter of 1994 due to ammonia discharges in violation of the local discharge limit. The City is currently conducting a study to re-evaluate the ammonia local discharge limit.

John Crane Inc., 2719 NW St. Helens Rd., was in significant non-compliance during the third quarter of 1993 due to discharges of lead in violation of the local discharge limit. John Crane ceased operations in the city of Portland.

Lacamas Laboratories, Inc., 3625 N Suttle Rd., was in significant non-compliance during the fourth quarter of 1993 due to lead discharges in violation of the local discharge limit and discharges of total toxic organics in violation of their permit limit. Lacamas Labs was also in significant non-compliance during the second quarter of 1993 due to discharge of arsenic in violation of the local discharge limit. Lacamas Labs was placed under a compliance order to correct the problem. Currently, Lacamas Labs is in compliance with all their permit limits.

Lynden Farms/Belozer Brothers, 6135 N Basin Ave., was in significant non-compliance during the third and fourth quarters of 1994 due to failure to submit a required report within 30 days of the due date. Lynden Farms is now under new ownership and the successor company in full compliance.

days of the due dates. Precision Castparts Corp., 4600 SE Harney Drive, was in significant non-compliance during the third quarter of 1993 due to failure to submit required reports within 30 days of the due dates. Precision Castparts paid civil penalties and is now in compliance.

Premier Edible Oils, 12005 N Burgard Rd., was in significant non-compliance during the third and fourth quarters of 1993 and for all four quarters of 1994 due to discharges of phenolics in violation of the local discharge limit. The City is currently conducting a study to re-evaluate the phenolics local discharge limit.

Qualex, Inc., 2725 SE Raymond St., was in significant non-compliance during the third and fourth quarters of 1993 and for the first, second and third quarters of 1994 due to ammonia discharges in violation of the local discharge limit. Qualex is currently conducting a study to re-evaluate the ammonia local discharge limit.

Star Rental and Sales, 1735 SE Martin Luther King Jr. Blvd., was in significant non-compliance during the third quarter of 1993 and the first quarter of 1994 due to discharges of non-polar fats, oil and grease in violation of the local discharge limit. Star Rental is now in compliance with the local discharge limit.

Sunwest Energy Corp., 2601 N Newark St., was in significant non-compliance during the third and fourth quarters of 1993 and for the second quarter of 1994 due to discharges of sulfate in violation of the local discharge limit. Sunwest is currently conducting a study to re-evaluate the sulfate and fluoride local discharge limits.

Tri-Met Garages, 4400 SE 17th Ave., was in significant non-compliance during the fourth quarter of 1993 due to failure to submit a required report within 30 days of the due date. Tri-Met is currently in compliance with all reports.

UniFirst Corporation (formerly Industrial Laundry Service), 14321 NE Sandy Blvd., was in significant non-compliance during the fourth quarter of 1993 due to discharges of non-polar fats, oil and grease in violation of the local discharge limit. UniFirst is currently conducting a study to re-evaluate the total toxic organics discharge limit.

Union Camp Corporation, 2550 NW Nicolai St., was in significant non-compliance during the third quarter of 1993 due to failure to submit required reports within 30 days of the due dates. Union Camp was purchased by Chas. Wacker Siltronic Corporation in the city of Portland.

Wacker Siltronic Corporation, 7200 NW Front Ave., was in significant non-compliance during the third quarter of 1994 due to discharges of sulfate in violation of the local discharge limit. The City is currently conducting a study to re-evaluate the sulfate local discharge limit.

Yellow Freight System, Inc., 10501 N Vancouver Ave., was in significant non-compliance during the third and fourth quarters of 1993 and for the first quarter of 1994 due to discharges of non-polar fats, oil and grease in violation of the local discharge limit and due to failure to submit required reports within 30 days of the due dates. Yellow Freight corrected its reporting and non-polar fats, oil and grease discharges.
